

Highly Diluted Solvent Based Mold Release Agent For Polyurethane Clear Liquid

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Lubekote
- Model Number: xxxxx
- Minimum Order Quantity: None
- Price: 1-99 usd
- Packaging Details: 25L, 200L
- Delivery Time: 5-15 working days
- Payment Terms: T/T
- Supply Ability: 20T/week

Product Specification

- Classification: Chemical
- Name: PU Mole Release Agent
- Brand Name: Lubekote
- Odor: Slight
- Place Of Origin: China
- Diluent: Solvent
- Highlight: clear liquid mold release agent for polyurethane , solvent based pu release agent, polyurethane release agent highly diluted

Product Description

Solvent-based Mold Release Agent for the Polyurethane Industry LubeKote 129E

Description:

Lubekote 9129E is a solvent-based mold release agent formulated for the polyurethane industry. Lubekote 9129E has shown excellent performance in releasing polyurethane single-density shoes.

Properties:

Colour: Clear liquid

Density: 0.96-1.00 g/cm³

Shelf life: 24 months

Advantages:

Shiny surface, no greasy.

Form a clean film and can be tightly bonded to the mold surface.

Keep the mold clean for a longer time and reduce the frequency of downtime.

Ideally, multiple demolding cycles can be achieved for per application.

Application:

For optimum performance, the surface to be treated should be clean and free from oil or other residues. Lubekote 9129E is delivered as a concentrate and should be diluted prior to use with solvent. The dilution of 10-25 by volume is recommended. Optimal dilution rate should be established for each application. Stir or shake gently before use. When spraying the release agent, the spray gun should be 10-20 cm away from the surface of the mold. For the cleaned mold, it needs to be sprayed 3 times continuously, and the interval between each time is 3-5 minutes; after the last spray of the release agent, it is necessary to wait for the release agent to completely dry before normal production.

Handling precautions:

For industrial use only.

Prolonged skin contact with high concentrate dilutions should be avoided. Accidental splashes in the eye should be washed out with copious amounts of water.

More release agent for PU industry:

Application	Suitable code	Dispersing medium	Advantages
CPU	Lubekote 9120	Water based	Environmentally friendly; Easy to apply; Prolongs the mold cleaning cycle.
CPU	Lubekote 9020	Solvent based	Highly diluted; Multiple releases; Gloss finish.
Rigid foam	Lubekote 9701	Solvent based	Dry surface; Good performance on post process; Dilutable.
Rigid foam	Lubekote 925L	Solvent based	Excellent and multiple releases; Highly diluted.
Flexible foam	Lubekote 9820A	Water based	Environmentally friendly; Low VOC; Delicate skin, highly diluted; Less contaminating mold.
ISF	Lubekote 9810G	Water based	5~10 times dilution; Cost-effective; Less contaminating mold; strong demolding; Universal for all ISF.
Encapsulation	Lubekote 9808E	Water based	Matt finish; Excellent performance of produced parts; Less contaminating mold; strong demolding; Universal for all encapsulation.

Warehousing and logistics

It has nearly 5,000 square meters of cargo storage area. Eight employees work full-time in warehousing.

Technical support

Making adjustment in the field

Shanghai Lorechem has a professional technical service team, whose members are specialized in polymer materials engineering. They have a wealth of field testing.

Testing in the field

Shanghai LoreChem Co., Ltd. was established in 2008. It is a high-tech enterprise which is dedicated to serve releasing products which involve semi-permanent release agent, anti-sticking, surface lubrication and thermal reactive adhesive. Shanghai LoreChem has been improving product quality for 15 years. The releasing products are mainly applied in rubber, polyurethane and composite industry. The brand of Lubekote for release agent and Thinkbond for adhesive have been registered in China. Both of them are well known in the industry. Shanghai LoreChem's business is all over the domestic and foreign high-end production enterprises by providing professional technical solutions and services. The company's long-term goal is to become one of the best suppliers of release agent in Asia.
