Basic Information

- Place of Origin: China
- Brand Name: Lubekote
- Model Number: Lubekote TS-71-9055
- Minimum Order Quantity: None
- Price: 0-99usd
- Packaging Details: 20L, 200L
- Delivery Time: 10-15 working days
- Payment Terms: T/T
- Supply Ability: 20T/month

Product Specification

- Release Properties: Excellent
- Odor: Mild
- Surface: Matte Finish
- Usage: Spray On Mold Surface
- Classification: Chemical
- Shelf Life: 1 Year
- Storage: Cool And Dry Place
- Function: Molding And Lubrication
- Highlight: **Molding Shoe Sole Release Agent,
PU Shoe Sole Release Agent,
Matte Finish Shoe Sole Release Agent**

Product Description

Solvent Based PU Shoe Sole Release With Multiple Release Matte Finish

Product Description:

Our Lubekote TS-71-9055 is an excellent shoe sole release agent with a matte finish. It is specially designed for PU shoe soles, providing a high dilution shoe sole release agent that will ensure a matte finish. It is easy to use and has a long shelf life of one year when stored in a cool and dry place. This product is suitable for molding and lubrication, and it is highly effective and reliable.

Its special formula allows for excellent release properties and a high level of performance. It provides a durable and robust finish for PU shoe soles that can withstand wear and tear in the long run. It is also designed to be safe and nontoxic, making it an ideal choice for any shoe sole production facility.

This product is a great choice for PU shoe sole manufacturers who want to achieve the highest level of performance and durability. It will ensure a bright finish and excellent release properties for an extended period of time, making it a great choice for any shoe sole production facility.

Features:

Product Name: PU Mold Release Agent for Shoe Sole

Release Properties: Excellent

Odor: Mild

Function: Molding And Lubrication

Surface: MatteFinish

Classification: Chemical

High Dilution Shoe Sole Release Agent: Yes

Shoe Sole Mold Release Agent: Yes

Technical Parameters:

Product Parameter	Value
Function	Molding And Lubrication
Advantages	High Dilution Times
Usage	Spray On Mold Surface
Release Properties	Excellent
Storage	Cool And Dry Place
Shelf Life	1 Year
Odor	Mild
Surface	MatteFinish
Classification	Chemical
Main Application	PU Shoe Sole
Release Agent Name	PU Shoe Sole Mold Release Agent

Applications:

Lubekote TS-71-9055 is a solvent based shoe sole release agent that is formulated for excellent release properties. It is designed for use in molding and lubrication operations and provides mild odor for a pleasant working environment. This shoe sole mold release agent from Lubekote has a unique storage requirement, as it should be kept in cool and dry places for optimal performance. The product is manufactured by a well-known chemical company in China and can be used as a reliable shoe sole mold release agent.

This water-based shoe sole release agent from Lubekote is easy to apply and provides excellent release properties. It has a unique formulation that allows it to perform better than other similar products on the market. The product is designed to provide excellent lubrication of molds and helps to reduce the risk of sticking during the molding process. Additionally, it helps to reduce the amount of time and effort spent on cleaning molds and equipment.

Lubekote TS-71-9055 is a reliable and cost-effective shoe sole mold release agent that can be used on a variety of materials. Its mild odor ensures a pleasant working environment, and its excellent release properties make it an ideal choice for shoe sole molding. This product is a great choice for any shoe sole manufacturer who needs an effective and reliable mold release agent that can be used on a variety of materials.

Support and Services:

Technical Support and Service for PU Mold Release Agent

Our PU Mold Release Agent is a professional product designed to provide a reliable and long-lasting mold release performance. We provide full technical support and service to ensure that your product is performing at its best.

Technical Support

If you have any questions or need technical support, our knowledgeable and experienced team of experts is only a phone call away. We can provide advice on product selection, safety and application, as well as troubleshooting any issues you might have. Our helpful customer service representatives are also available to answer any questions you may have.

Service and Maintenance

We offer a range of services and maintenance programs to ensure that your PU Mold Release Agent is performing at its best. Our trained technicians will inspect and test your product to ensure it is in top condition. We can also provide on-site repairs and replacements, as well as providing replacement parts and accessories.

Warranty

Our PU Mold Release Agent is backed by a comprehensive warranty. We guarantee that our product will provide reliable performance for the duration of the warranty period. If you have any problems or concerns, please contact us and we will do our best to resolve the issue.

Packing and Shipping:

The PU Mold Release Agent is packaged in 20L or 200L drums. Can be shipped by sea and air.

Warehousing and logistics

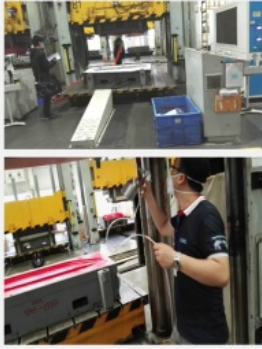

It has nearly 5,000 square meters of cargo storage area. Eight employees work full-time in warehousing.

Making adjustment in the field

Shanghai Lorechem has a professional technical service team, whose members are specialized in polymer materials engineering. They have a wealth of field testing.

Testing in the field

Shanghai LoreChem Co., Ltd. was established in 2008. It is a high-tech enterprise which is dedicated to serve releasing products which involve semi-permanent release agent, anti-sticking, surface lubrication and thermal reactive adhesive. Shanghai LoreChem has been improving product quality for 15 years. The releasing products are mainly applied in rubber, polyurethane and composite industry. The brand of Lubekote for release agent and Thinkbond for adhesive have been registered in China. Both of them are well known in the industry.

Shanghai LoreChem 's business is all over the domestic and foreign high-end production enterprises by providing professional technical solutions and services. The company's long-term goal is to become one of the best suppliers of release agent in Asia.
