

High Dilution Times Gloss Finish Solvent Based Release Agent For Shoe Sole Lubekote 9129E

Our Product Introduction

for more products please visit us on shlorechem.com

Basic Information

- Place of Origin: China
- Brand Name: Lubekote
- Model Number: Lubekote 9129E
- Minimum Order Quantity: None
- Price: 0-99usd
- Packaging Details: 20L, 200L
- Delivery Time: 10-15 working days
- Payment Terms: T/T
- Supply Ability: 20T/month

Product Specification

- Classification: Chemical
- Release Properties: Excellent
- Usage: Spray On Mold Surface
- Shelf Life: 1 Year
- Surface: Gloss Finish
- Advantages: High Dilution Times
- Storage: Cool And Dry Place
- Odor: Mild
- Highlight: **Chemical Shoe Sole Release Agent,
Shoe Sole Solvent Based Release Agent,
Gloss Finish Solvent Based Release Agent**

Product Description

High Dilution Times Gloss Finish Solvent Based Release Agent for Shoe Sole Lubekote 9129E

Product Description:

Our Lubekote 9129E is a chemical product designed for molding and lubrication purposes. This product has a mild odor and can be stored in a cool and dry place. It is specifically designed for high dilution shoe sole release agent, providing excellent release properties. This product is a polyurethane-based release agent that can be used for a variety of applications. It is formulated with special additives to provide a high degree of lubricity and mold release properties. The product also provides good adhesion and bonding of the polymer to the mold surface.

The product has excellent release properties and is capable of releasing polyurethane materials from molds with high levels of efficiency. It also provides a low-cost alternative to traditional mold release agents, making it an ideal choice for many types of manufacturing applications.

The product is ideal for use in the production of polyurethane-based shoe soles and other molding applications. It is easy to use and provides superior release properties, making it an ideal choice for high-dilution shoe sole release agent.

Features:

Product Name: PU Mold Release Agent for Shoe Sole

Function: Molding And Lubrication

Surface: Gloss Finish

Shelf Life: 1 Year

Storage: Cool And Dry Place

Release Properties: Excellent

Specialized Use: Shoe Sole Mold Release Agent, Solvent Based Shoe Sole Release Agent

Technical Parameters:

Property	Value
Classification	Chemical
Release Properties	Excellent
Advantages	High Dilution Times
Shelf Life	1 Year
Odor	Mild
Usage	Spray On Mold Surface
Storage	Cool And Dry Place
Function	Molding And Lubrication
Surface	Gloss Finish
Type	Water Based Shoe Sole Release Agent
Material	PU Shoe Sole Release
Finish	Bright Finish

Applications:

PU Mold Release Agent: Lubekote 9129E

Lubekote Mold Release Agent is specially designed for the PU shoe sole industry. It is a water-based release agent that is specially formulated to provide excellent release properties for the PU shoe sole molding and lubrication process. It has high dilution times, making it suitable for multiple applications and ensuring superior performance. The chemical classification of Lubekote Mold Release Agent ensures it is highly effective for PU shoe sole release and lubrication. It is easy to use, and it is safe to use and store. It should be stored in cool and dry place to ensure optimal performance.

Lubekote Mold Release Agent is ideal for use in the PU shoe sole industry. It provides superior release properties and lubrication, ensuring that the PU shoe sole is easy to release from the mold with minimal effort. It is also highly effective in preventing sticking and adhesion on the PU shoe sole molds. It is highly efficient and cost-effective, and it can be used effectively for multiple applications. It provides superior performance and reliability, and it is easy to use and store.

Lubekote Mold Release Agent is the perfect solution for PU shoe sole release and lubrication. It offers superior performance, high dilution times, excellent release properties, and it is safe to use and store. It is highly effective for PU shoe sole release and lubrication, and it is cost-effective and reliable. It is the perfect solution for the PU shoe sole industry.

Support and Services:

Technical Support and Service for PU Mold Release Agent

We provide technical support and service for PU Mold Release Agent. Our highly trained technicians are available to help you troubleshoot any issues you may have and guide you in the right direction.

Our technical support team can be reached via phone, email, or live chat. We are available 24/7 to answer your questions and provide you with the best possible service.

We also offer online tutorials and videos to help you better understand how to use the product. Our team is always available to answer your questions and provide you with the help you need.

We understand that the use of PU Mold Release Agent can be complicated. That's why we are here to help. Our team of experts is ready to provide you with the assistance you need to get the most out of your product.

Packing and Shipping:

Packaging and Shipping of PU Mold Release Agent:

The PU Mold Release Agent is packed in containers designed for air, sea or land transportation.

The PU Mold Release Agent is sealed in containers with double plastic film and then packed in cartons.

The PU Mold Release Agent is shipped by air or sea to the destination port.

Warehousing and logistics

It has nearly 5,000 square meters of cargo storage area. Eight employees work full-time in warehousing.

Making adjustment in the field

Shanghai Lorechem has a professional technical service team, whose members are specialized in polymer materials engineering. They have a wealth of field testing.

Testing in the field

Shanghai LoreChem Co., Ltd. was established in 2008. It is a high-tech enterprise which is dedicated to serve releasing products which involve semi-permanent release agent, anti-sticking, surface lubrication and thermal reactive adhesive. Shanghai LoreChem has been improving product quality for 15 years. The releasing products are mainly applied in rubber, polyurethane and composite industry. The brand of Lubekote for release agent and Thinkbond for adhesive have been registered in China. Both of them are well known in the industry.

Shanghai LoreChem 's business is all over the domestic and foreign high-end production enterprises by providing professional technical solutions and services. The company's long-term goal is to become one of the best suppliers of release agent in Asia.
