Basic Information

- Place of Origin: China
- Brand Name: Lubekote
- Model Number: Lubekote 9120M-1/9552/9129E
- Minimum Order Quantity: None
- Price: 0-99usd
- Packaging Details: 20L ,200L
- Delivery Time: 10-15 working days
- Payment Terms: T/T
- Supply Ability: 20T/month

Product Specification

- Classification: Chemical
- Function: Molding And Lubrication
- Storage: Cool And Dry Place
- Surface: Matte Finish
- Odor: Mild
- Advantages: High Dilution Times
- Usage: Spray On Mold Surface
- Release Properties: Excellent
- Highlight: **Shoes Industry Mold Release Agent,
Water Based Shoe Sole Mold Release Agent,
Matte Finish PU Mold Release Agent**

Product Description

Water Based Shoe Sole Mold Release Agent for Industry Lubrication of PU Shoes

Product Description:

It is a water-based shoe sole release agent designed to provide excellent release and high dilution times. It is formulated to give a matte or bright finish to the surface, and has a mild odor. This chemical agent is perfect for PU shoe sole release and ensures a smooth, effective and easy release of the molded product. It is easy to use and store and should be kept in a cool and dry place. Our PU Mold Release Agent provides superior long-term performance and allows for easy release of the molded product.

Features:

Product Name: PU Mold Release Agent

Release Properties: Excellent

Function: Molding And Lubrication

Surface: Matte/Bright Finish

Advantages: High Dilution Times

Classification: Chemical

Keywords: PU shoe sole release , shoe sole mold release agent, shoe sole release agent with bright finish

Technical Parameters:

Parameters	Values
Shelf Life	1 Year
Surface	Matte Finish
Usage	Spray On Mold Surface
Odor	Mild
Release Properties	Excellent
Advantages	High Dilution Times
Storage	Cool And Dry Place
Function	Molding And Lubrication
Classification	Chemical

Applications:

Lubekote 9225 is a high dilution shoe sole release agent with a bright finish, made by Lubekote, a well-known brand in China. It is a chemical agent with a long shelf life of one year when stored in a cool and dry place. It has the advantages of high dilution times, which can save you time and money. Its usage is simple: simply spray it on the mold surface. It will create a smooth and bright finish with minimal effort and time. It is widely used in the shoe sole industry, especially for PU shoe sole release. It is a reliable product that will definitely help you reach your desired results.

Support and Services:

Technical Support and Service for PU Mold Release Agent

We are committed to providing professional technical support and services for our PU Mold Release Agent. Our team of experts will provide you with the necessary assistance and support to ensure successful application of our product.

Technical Support

We offer comprehensive technical support for our PU Mold Release Agent. Our team of technical experts can provide you with the necessary information and guidance to help you use the product effectively and safely.

Our technical experts are available to answer any questions you may have regarding the product, its application and safety. We also provide detailed instructions and safety information on our product.

Service

We provide a full range of services to ensure the successful application of our product. We offer product application guidance and training, as well as troubleshooting and maintenance services.

Our customer service team is available 24/7 to provide assistance with any issues you may encounter. We also offer product warranty and returns.
