

High Dilution Polyurethane Shoe Sole Release Agent For Matte Or Bright Finish

Our Product Introduction

for more products please visit us on shlorechem.com

Basic Information

- Place of Origin: China
- Brand Name: Lubekote
- Model Number: Lubekote 9120M-1/9552/9129E
- Minimum Order Quantity: None
- Price: 0-99usd
- Packaging Details: 25L, 200L
- Delivery Time: 10-15 working days
- Payment Terms: T/T
- Supply Ability: 20T/month

Product Specification

- Classification: Chemical
- Release Properties: Excellent
- Function: Molding And Lubrication
- Surface: Matte/Bright Finish
- Odor: Mild
- Advantages: High Dilution Times
- Usage: Spray On Mold Surface
- Shelf Life: 1 Year
- Highlight: **Bright Finish Shoe Sole Release Agent,
Shoe Sole Manufacturing Release Agent,
High Dilution Polyurethane Release Agent**

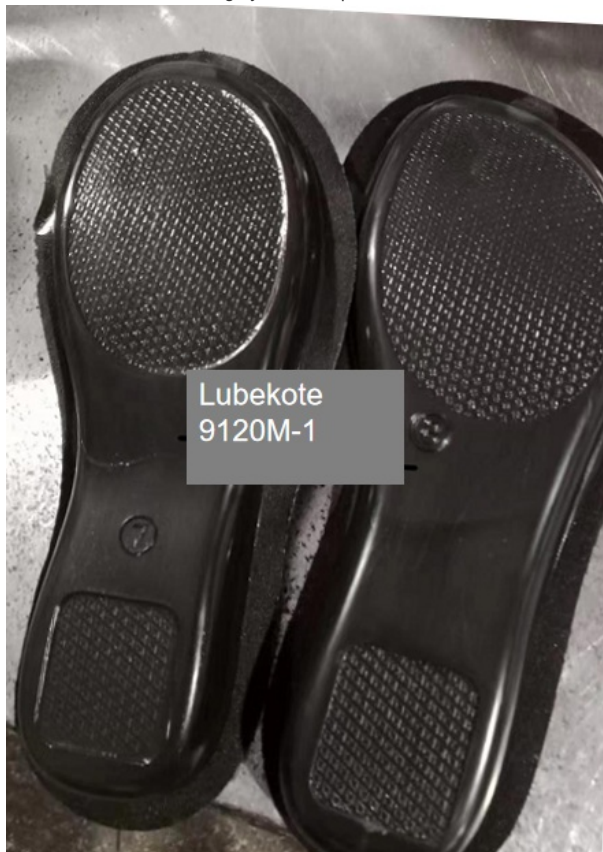

Product Description

High Dilution Times PU Shoe Sole Release Agent with Bright Finish

Product Description:

Our Mold Release Agent is a product designed for shoe sole manufacturing. It provides a matte or bright finish on the mold surface, and is easy to apply by spraying. It has a mild odor and is best stored in a cool and dry place. Its shelf life is up to one year, making it a reliable and economical choice for shoe sole production.

This release agent offers excellent release properties for PU shoe sole molds. It has superior adhesive strength, preventing shoe sole from sticking to the mold surface. It also has outstanding lubrication performance, reducing sticking and accumulation of PU materials on the mold surface. It is a highly effective product for smooth and efficient production of PU shoe soles.

Features:

Product Name: PU Mold Release Agent

Usage: Spray On Mold Surface

Odor: Mild

Function: Molding And Lubrication

Release Properties: Excellent

Storage: Cool And Dry Place

Keywords: Shoe Sole Release Agent, PU Shoe Sole Release, Shoe Sole Mold Release Agent

Technical Parameters:

Parameter	Specification
Function	Molding And Lubrication
Odor	Mild
Advantages	High Dilution Times
Surface	Matte/Bright Finish
Storage	Cool And Dry Place
Shelf Life	1 Year
Usage	Spray On Mold Surface

Classification	Chemical
Release Properties	Excellent

Applications:

Lubekote 9120M-1/9552/9129E – High Quality PU shoe sole Mold Release Agent

Lubekote 9120M-1/9552/9129E, a water/ solvent based shoe sole release agent from China, is specifically designed for PU shoe sole release. It provides excellent molding and lubrication properties, has a mild odor, and leaves a matte or bright finish on the surface. It is highly diluted, making it very cost effective and efficient. It is also very easy to use, allowing for a quick and simple spray application on the mold surface.

The advantages of using Lubekote 9120M-1/9552/9129E over other release agents include its long-term stability, excellent lubrication and molding performance, and its high dilution times. Moreover, it is highly reliable and provides an excellent release effect. It is also very safe to use and is environmentally friendly.

Lubekote 9120M-1/9552/9129E is the ideal choice for PU shoe sole release due to its superior performance and cost effectiveness. It is perfect for any application where a mold release agent is needed, from industrial and commercial settings to domestic ones. Its excellent release effect ensures that the PU shoe sole will be released uniformly and with minimal effort.

With Lubekote 9120M-1/9552/9129E, you can be sure that your PU shoe sole release will be of the highest quality. It is the perfect choice for any mold release application and is sure to provide you with the best results.

Support and Services:

Technical Support and Service for PU Mold Release Agent

We provide technical support and service for PU Mold Release Agent to ensure our customers get the best performance from our products. Our team of experienced professionals is available to answer any questions you may have about the product, its application and how to get the best results.

Our service includes:

Providing technical advice on the use of our products

Assistance with troubleshooting and problem solving

Assistance with product selection

Providing product samples for testing

Providing maintenance and repair services

If you have any questions or need assistance, please do not hesitate to contact us. We are here to help.

Packing and Shipping:

Packaging and Shipping for PU Mold Release Agent:

The product is packaged in 20 L and 200 L plastic drums or customized.

Shipping is by air or sea.

Warehousing and logistics

It has nearly 5,000 square meters of cargo storage area. Eight employees work full-time in warehousing.

Technical support

Making adjustment in the field

Shanghai Lorechem has a professional technical service team, whose members are specialized in polymer materials engineering. They have a wealth of field testing.

Testing in the field

Shanghai LoreChem Co., Ltd. was established in 2008. It is a high-tech enterprise which is dedicated to serve releasing products which involve semi-permanent release agent, anti-sticking, surface lubrication and thermal reactive adhesive. Shanghai LoreChem has been improving product quality for 15 years. The releasing products are mainly applied in rubber, polyurethane and composite industry. The brand of Lubekote for release agent and Thinkbond for adhesive have been registered in China. Both of them are well known in the industry.

Shanghai LoreChem's business is all over the domestic and foreign high-end production enterprises by providing professional technical solutions and services. The company's long-term goal is to become one of the best suppliers of release agent in Asia.
