

Molding Industry PU Mold Release Agent , Shoe Sole Release Agent With Mild Odor

Our Product Introduction

for more products please visit us on shlorechem.com

Basic Information

- Place of Origin: China
- Brand Name: Lubekote
- Model Number: Lubekote 9120M-1/9552/9129E
- Minimum Order Quantity: None
- Price: 0-99 usd
- Packaging Details: 25L, 200L
- Delivery Time: 10-15 working days
- Payment Terms: T/T
- Supply Ability: 20T/month

Product Specification

- Advantages: High Dilution Times
- Function: Molding And Lubrication
- Usage: Spray On Mold Surface
- Storage: Cool And Dry Place
- Surface: Matte/Bright Finish
- Shelf Life: 1 Year
- Release Properties: Excellent
- Classification: Chemical
- Highlight: **Molding Industry PU Mold Release Agent ,
Shoe Sole Release Agent Mild Odor ,
OEM Shoe Sole Release Agent**

Product Description

Excellent Release Properties Shoe Sole Release Agent with Mild Odor

Product Description:

Our Release Agent is a premium quality, high dilution shoe sole release agent designed for the PU molding industry. It is an excellent choice for PU molders because it has excellent release properties and high dilution times. This product has a mild odor and can be applied by spraying onto the mold surface. It is easy to use and provides an optimal mold release effect. It can be stored in a cool and dry place, making it an ideal option for PU molders.

Features:

Product Name: PU Shoe Sole Mold Release Agent

Advantages: High Dilution Times

Surface: Matte/Bright Finish

Shelf Life: 1 Year

Odor: Mild

Release Properties: Excellent

Technical Parameters:

Parameters	Details
Odor	Mild
Storage	Cool and Dry Place

Usage	Spray on Mold Surface
Advantages	High Dilution Times
Shelf Life	1 Year
Classification	Chemical
Surface	Matte/Bright Finish
Release Properties	Excellent
Function	Molding and Lubrication

Applications:

Lubekote 9120M-1/9552/9129E is an excellent PU Mold Release Agent manufactured by Lubekote, which is a leading brand in China. It is widely used for shoe sole molding and lubrication. The special formulation of this agent provides excellent release properties and helps in achieving the desired texture. It is easy to use and can be sprayed on the mold surface to ensure smooth operation. It is recommended to store it in a cool and dry place to ensure its quality. Lubekote 9120M-1/9552/9129E is classified as a chemical release agent and it helps to reduce the manufacturing time and cost. It is ideal for use on PU shoe sole molds and it helps to reduce sticking and build-up of material on the mold surface. It helps to provide uniform surface finish and ensures that the molded product has the desired texture. Thus, it has become a popular choice for use in shoe sole manufacturing and other molding and lubrication applications.

Support and Services:

Our Mold Release Agent provides technical support and service to help you get the most out of your product. Our technical support team is available to answer any questions or concerns you may have about our product. We offer a variety of services, including product demonstrations, troubleshooting, and installation assistance. We also provide product updates and maintenance services to keep your product running smoothly. Our knowledgeable staff is always available to help you with any issue you may have.

Packing and Shipping:

Our Mold Release Agent is packaged in a sealed container with a label indicating the product name and weight, and shipped in an appropriate package.

Warehousing and logistics

It has nearly 5,000 square meters of cargo storage area. Eight employees work full-time in warehousing.

Making adjustment in the field

Shanghai Lorechem has a professional technical service team, whose members are specialized in polymer materials engineering. They have a wealth of field testing.

Testing in the field

Shanghai LoreChem Co., Ltd. was established in 2008. It is a high-tech enterprise which is dedicated to serve releasing products which involve semi-permanent release agent, anti-sticking, surface lubrication and thermal reactive adhesive. Shanghai LoreChem has been improving product quality for 15 years. The releasing products are mainly applied in rubber, polyurethane and composite industry. The brand of Lubekote for release agent and Thinkbond for adhesive have been registered in China. Both of them are well known in the industry.

Shanghai LoreChem's business is all over the domestic and foreign high-end production enterprises by providing professional technical solutions and services. The company's long-term goal is to become one of the best suppliers of release agent in Asia.
