

## Water Based Oil Seal Release Agent for Rubber Demolding

Our Product Introduction

for more products please visit us on [shlorechem.com](http://shlorechem.com)

### Basic Information

- Place of Origin: China
- Brand Name: Lubekote
- Model Number: 9410A
- Minimum Order Quantity: None
- Price: 1-99 usd
- Packaging Details: 25L, 200L
- Delivery Time: 5-15 working days
- Payment Terms: T/T
- Supply Ability: 20T/week

### Product Specification

- Product Name: Oil Seal Release Agent
- Classification: Bisphenol System Fluorogel Skeleton Oil Seal
- Odor: Slight
- Application: Rubber Parts Demolding
- Type: Water Based
- Highlight: **Water Based rubber mould release agents, Mechanical Oil Seal rubber release agents, Oil Seal water based mold releases**

## Product Description

### Oil Seal Release Agent

#### Product Specifications

Attribute	Value
Product Name	Oil Seal Release Agent
Classification	Bisphenol system fluorogel skeleton oil seal
Odor	Slight
Application	Rubber parts demolding
Type	Water Based

#### Product Description

##### Water Based Rubber Mould Release Agent For Bisphenol System Fluorogel Skeleton Oil Seal

Lubekote 9410A is a semi-permanent water-based release system designed for moulding operations when non-transfer of release agent, high temperature stability, high degree of slip, and abrasion resistance of the release film are important.

Lubekote 9410A is water thin liquid and ready to use. The release system becomes functional after cure. The release film is micro thin and stable until 260°C.

Lubekote 9410A adheres to mould surfaces and provides multiple releases with virtually no transfer to moulded parts.

Lubekote 9410A reduces build-up on moulds when applied according to instructions.

#### Key Advantages

Color: white

Density: 1.0 g/cm<sup>3</sup>

Shelf life: 12 months

#### Application Instructions

Molds should be clean before using

Apply a thin coat of our release agent

Wait until the water is evaporated

Start production

#### Handling Precautions

For industrial use only

Avoid prolonged skin contact with high concentrate dilutions

Wash accidental eye splashes with copious water

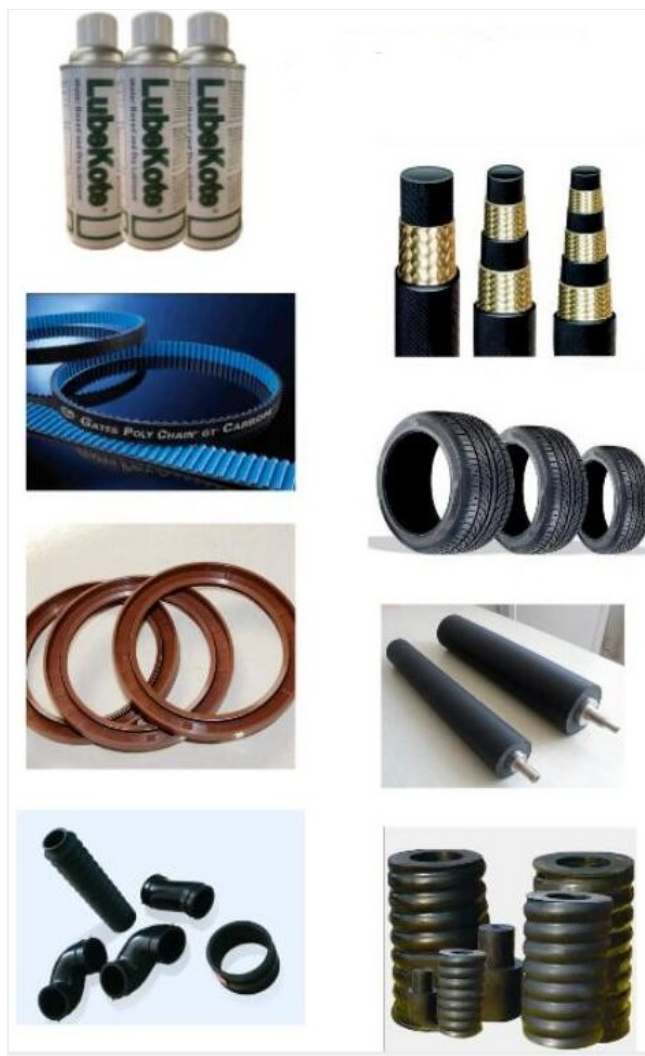

Do not allow product to freeze

#### Related Release Agents for Rubber Industry

Application	Suitable Code	Dispersing Medium	Advantages
Antivibration	Lubekote 9421A/9140	Water based	Environmentally friendly; Can be diluted multiple times; Strong durability and good releasing effect; Excellent surface gloss; Cost-effective; Prolongs mold cleaning cycle
Antivibration	Lubekote 9526	Solvent based	Strong durability and good releasing effect; Excellent surface gloss; Economical dosage; Prolongs mold cleaning cycle
Antivibration	Lubekote 9425	Solvent based	Strong durability and good releasing effect; Less build-up on molds; Cost-effective; Good post-process performance

Hose	Lubekote 9240	Water based	Environmentally friendly; Excellent anti-tack agent for rollers, drums and autoclave vulcanisation operations
Hose	Lubekote 9808	Solvent based	Non-greasy, non-contaminating coating; Good releasing effect; Excellent performance of produced parts
Belt	Lubekote 9836A	Water based	Environmentally friendly; Good releasing effect
Belt	Lubekote 9328	Solvent based	Fast drying; Good releasing effect; Cost-effective
Tire	Lubekote 9919	Water based	Semi-permanent lubricant system for Bladders and Green Tires; Easy to apply; Provides true multiple releases; Universal for all tires
Tire	Lubekote 9502A/9503A	Water based	Semi-permanent water-based release agent for tire molds with adjustable part surface gloss level
Silicone & Fluorine rubber	Lubekote 9165C	Water based	For hard-to-release rubber like fluorine rubber; Can be used as semi-permanent or highly diluted; Strong durability and good releasing effect; Excellent surface gloss; Cost-effective; Good post-process performance

Shanghai Lorechem Co., Ltd. was established in 2008. It is a high-tech enterprise dedicated to serving releasing products which involve semi-permanent release agent, anti-sticking, surface lubrication and thermal reactive adhesive.
