

## Mild Odor Liquid Rubber Mould Release Agent For TBR Tires All Steel Tires

Our Product Introduction

for more products please visit us on [shlorechem.com](http://shlorechem.com)

### Basic Information

- Place of Origin: China
- Brand Name: Lubekote
- Model Number: 9502A/9503A/9165C

### Product Specification

- Product Name: Tire Release Agent
- Product Type: Release Agent
- Form: Liquid
- Storage: Sealed Storage
- Odor: Mild
- Clean Up: Water
- Safety: Non-Toxic
- Shelf Life: 1 Years
- Highlight: **Liquid Release Agents for Tire Molding ,  
TBR Tires Mould Release Agent,  
Lubekote Tire Molding Release Agent**

## Effective Rubber Tire Release Agent for TBR Tires All Steel Tires

### Product Description:

Tire Release Agent is a specialized rubber mold release agent specially formulated for tire molding. It is a transparent or white liquid that is highly soluble in water. It is designed for exceptional performance on all types of rubber molds, providing superior release and surface finish for tire molding. Tire Release Agent is also suitable for other rubber molding applications, such as rubber sheet molding and rubber extrusion.

Tire Release Agent is easy to apply and provides superior lubricity, allowing for even coverage without build-up. It contains no silicones, so it does not leave a residue after release. It is also non-flammable, non-toxic, and environmentally friendly. Tire Release Agent is designed to reduce sticking and staining, allowing for quick and easy removal of tires from the mold. It also helps to reduce wear and tear on the molds, increasing the life of the molds.

Tire Release Agent is an ideal choice for tire manufacturers looking for a reliable and cost-effective solution for their tire molding needs. It is highly recommended for rubber molding applications, providing superior performance and excellent value.

### Features:

**Product Name:** Tire Release Agent

**Odor:** Mild

**Safety:** Non-Toxic

**Shelf Life:** 1 Years

**Application:** Mold Release Agents for Rubber and Tire Manufacturing, Release Agents for Tire Molding, Tire Mold Release Agent

### Technical Parameters:

Product Name	Shelf Life
Tire Release Agent	1 Year
Color	Clean Up
Transparent/White	Water
Storage	Odor
Sealed Storage	Mild
Form	Application
Liquid	Tire Mold Release
Solubility	Product Type
Soluble In Water	Release Agent

### Applications:

## Lubekote Tire Release Agent 9502A/9503A/9165C

Lubekote Tire Release Agent 9502A/9503A/9165C is a rubber mold release agent designed to help tire manufacturers achieve effective tire mold release without sacrificing their production quality. This tire release agent is made from high quality raw materials and features excellent solubility in water. It is odorless and provides a consistent release rate, ensuring that no residue is left behind on the tire molds.

Lubekote Tire Release Agent 9502A/9503A/9165C is ideal for tire manufacturers who demand a high quality product that can provide consistent results. It is easy to use and can be stored for up to one year in a sealed container. This tire release agent is also cost-effective, providing an economical solution for tire mold release.

Lubekote Tire Release Agent 9502A/9503A/9165C is the ideal solution for any tire manufacturer who needs a reliable, cost-effective tire release agent. Its high quality raw materials and excellent solubility make it the perfect choice for tire mold release. With its consistent release rate and no residue left behind, this tire release agent is the ideal choice for tire manufacturers.

## Packing and Shipping:

### Packaging and Shipping for Tire Release Agent

Tire Release Agent must be packaged and shipped with the following considerations:

All containers must be labeled with the product name and other relevant information.

The product must be kept away from direct sunlight, moisture and extreme temperatures.

The product must be shipped in an appropriate container and with suitable packaging materials.

The ship must be insured to cover any potential damages during transit.

## FAQ:

Q1: What is Lubekote Tire Release Agent?

A1: Lubekote Tire Release Agent is a specialized release agent specifically designed to release tires from molds. It is available in three different models, 9502A, 9503A and 9165C, and is manufactured in China.

Q2: What are the benefits of using Lubekote Tire Release Agent?

A2: Lubekote Tire Release Agent is formulated to reduce the need for manual tire removal from the mold. It also helps protect the tire molds from corrosion, improves tire surface finish and prevents sticking and build up.

Q3: How is Lubekote Tire Release Agent used?

A3: Lubekote Tire Release Agent should be applied to the mold surfaces prior to tire molding or casting. It should be applied to all the mold cavities and surfaces in order to ensure proper coverage. The release agent should be applied in a thin, even coat for optimal results.

Q4: How often should Lubekote Tire Release Agent be applied?

A4: Lubekote Tire Release Agent should be applied prior to each tire molding or casting process. If the tire molding or casting process is done on a frequent basis, then the release agent should be applied more frequently.

Q5: Is Lubekote Tire Release Agent safe to use?

A5: Yes, Lubekote Tire Release Agent is safe to use. It is non-toxic, non-flammable, and does not contain any hazardous chemicals.
