

## Non Toxic Tire Release Agent , Tyre Mold Release Agent Liquid With High Dilution

Our Product Introduction

for more products please visit us on [shlorechem.com](http://shlorechem.com)

### Basic Information

- Place of Origin: China
- Brand Name: Lubekote
- Model Number: 9502A/9503A/9165C

### Product Specification

- Color: Transparent/white
- Form: Liquid
- Odor: Mild
- Storage: Sealed Storage
- Product Type: Release Agent
- Application: Tire Mold Release
- Shelf Life: 1 Years
- Clean Up: Water
- Highlight: **Non Toxic Tire Release Agent ,  
High Dilution Tyre Mold Release Agent ,  
OEM Release Agents for Tire Molding**

## Type Release Agent Tyre Mold Release Agent with High dilution

### Product Description:

Tire Release Agent: A Tire Mold Release Agent for Optimal Performance

Tire Release Agent is a specially designed release agent made for tire mold release. It has excellent solubility in water and is available in a clear, transparent and white color. This product is popularly used in the tire industry for tire mold release. It helps to ensure that the tire mold is perfectly released from the tire mold after the manufacturing process is completed. Tire Release Agent is an essential part of the tire manufacturing process as it helps to ensure that the tires are of the highest quality and are perfectly molded.

This tire release agent is designed to provide optimal performance and is highly effective in releasing the tire mold from the tire. It is also designed to prevent sticking of the tire mold to the tire and is perfect for use in the tire industry. This product is also easy to use and is safe to use. It offers excellent protection against corrosion and is designed to maintain the perfect tire mold release.

Tire Release Agent is an essential product for the tire industry and is used to ensure that the tires are of the highest quality and perfectly molded. With its excellent solubility in water and clear, transparent and white color, Tire Release Agent is the perfect choice for tire mold release. It helps to ensure that the tire mold is perfectly released from the tire mold after the manufacturing process is completed.

### Features:

**Product Name:** Tire Release Agent

**Safety:** Non-Toxic

**Application:** Tire Mold Release

**Product Type:** Release Agent

**Storage:** Sealed Storage

**Keywords:** Release Agents for Tire Molding, tyre release agent, Release Agents for Tire Molding

### Technical Parameters:

Parameter	Value
Form	Liquid
Storage	Sealed Storage
Odor	Mild
Safety	Non-Toxic
Application	Mold Release Agent for Rubber and Tire Manufacturing

Parameter	Value
Shelf Life	1 Years
Color	Transparent/white
Solubility	Soluble In Water
Product Type	Release Agent
Product Name	Tire Release Agent

## Applications:

Lubekote Tire Release Agent: Non-Toxic Rubber Mold Release Agent

Lubekote Tire Release Agent is a specially formulated, non-toxic liquid rubber mold release agent. It is designed to provide superior performance for tire and rubber molding applications. It helps to reduce the risk of tire adhesion to the rubber mold, providing a slick, non-stick surface and making it easier to remove the tire from the mold. The tire release agent provides excellent release properties, even in extreme temperatures.

The Lubekote Tire Release Agent is available in three models, including 9502A, 9503A, and 9165C, and is easy to apply and store. The product has a shelf life of one year and is safe to use, offering non-toxic protection for workers and the environment. It can be used for a variety of tire and rubber molding applications and is a great choice for those looking for an effective and reliable tire release agent. For those seeking a reliable tire release agent, Lubekote Tire Release Agent is a great choice. Its non-toxic formula offers excellent release properties, making it an ideal choice for tire and rubber molding applications. With its easy application and storage, one-year shelf life, and three models available, Lubekote Tire Release Agent is an ideal solution for those looking for an effective, non-toxic tire release agent.

## Packing and Shipping:

Packaging and Shipping for Tire Release Agent

Tire Release Agent is packaged in a 10-gallon container and shipped using a shipping method approved by the carrier. The container should be securely closed and labeled with the product information, including expiration date and any hazardous material warnings. The product should be stored at a temperature range of 40-120°F and should not be exposed to temperatures above 140°F. The container should be stored in a dry, well-ventilated area away from direct sunlight.

When shipping the product, the carrier must be informed of the hazardous material classification of the product, and all necessary safety precautions must be taken. The container should be marked with a "Dangerous Goods" label, and any additional labeling requirements should be followed.

## FAQ:

Q: What is Tire Release Agent?

A: Tire Release Agent is a product designed to help release tires from molds. It is developed by Lubekote, with Model Numbers 9502A/9503A/9165C, which is made in China.

Q: What are the main ingredients of Tire Release Agent?

A: The main ingredients of Tire Release Agent are vegetable oils, waxes and surfactants.

Q: How to apply Tire Release Agent?

A: You can apply Tire Release Agent by spraying, brushing, or dipping the tire mold before tire pressing.

Q: Will Tire Release Agent leave residue?

A: No, Tire Release Agent is non-residual and will not leave any residue on the tire.

Q: How long does Tire Release Agent last?

A: Tire Release Agent can last up to 6 months, depending on the environment and usage frequency.
