Basic Information

- Place of Origin: China
- Brand Name: Lubekote
- Model Number: 9502A/9503A/9165C
- Minimum Order Quantity: None
- Price: negotiation
- Packaging Details: 25L, 200L
- Delivery Time: 5-15 working days
- Payment Terms: T/T
- Supply Ability: 20T/month

Product Specification

- Advantage 2: Easy To Apply
- Application: Can Be Applied Directly On The Bladder Or Into The Green Tire
- Color: White
- Advantage 4: Excellent Slip And Air Bleed
- Appearance: White Liquid
- Advantage 1: VOC-free
- Type: Water Based, Semi-permanent
- Highlight: **Semi Permanent Release Agent for Tire, VOC Free Tire Bladder Release Agent, High Durability Tire Bladder Release Agent**

Product Description

VOC Free Liquid Curing Tire Bladder Release Agent Easy to Apply High Durability

Product Description:

The Tire Release Agent is designed to be applied in thin layers, providing cost-effective and maximum results. It can be applied directly onto the bladder or into the green tire, depending on the user's preference and requirements.

Our Tire Release Agent is the perfect solution for those looking for a reliable and effective bladder coating release product. It is specially formulated to work efficiently and effectively, allowing for easy and smooth release of the cured tires from the bladder coating.

The use of our Tire Release Agent helps prevent tire damage, reducing the risk of tire defects and increasing productivity. The thin layers of our product also contribute to a cleaner working environment, making it an ideal choice for those looking for a product that is both efficient and environmentally-friendly.

In conclusion, our Tire Release Agent is an excellent choice for those in need of bladder release products. Its advantages, including cost-effectiveness and maximum results with thin layers, make it a top choice for tire manufacturers. Order now and experience the benefits of our high-quality Tire Release Agent!

Features:

Product Name: Semi-Permanent Bladder Release Coatings Green Tires Water Based

Appearance: White liquid

Type: Water Based, Semi-permanent

Status: Liquid

Advantage: Excellent slip and air bleed

Features:

Provides bladder coating for green tires

VOC-free formulation

Water based for easy application and cleanup

Technical Parameters:

Product Category	Tire Release Agent
Product Name	Semi-Permanent Bladder Release Coatings Green Tires Water Based
Application	Can be applied directly on the bladder or into the green tire
Advantage 1	VOC-free
Advantage 2	Easy to apply
Advantage 3	Multiple releases per application
Advantage 4	Excellent slip and air bleed
Advantage 7	Universal for all tires
Shelf life	12 months

Applications:

Our semi-permanent bladder release coatings can be applied directly onto the bladder or into the green tire, making it a versatile and user-friendly product. Additionally, with multiple releases per application, you can save time and money on the production line.

Another advantage of Lubekote's tire release agent is its universal compatibility with all tires. Whether you're manufacturing passenger car tires, truck tires, or specialty tires, our product will work for you.

We offer a supply ability of 20T/month and a delivery time of 5-15 working days. Our packaging options include 25L and 200L containers, depending on your needs.

If you're ready to streamline your tire production process and improve efficiency, consider switching to Lubekote's semi-permanent bladder release coatings for green tires. With easy application, multiple releases, and universal compatibility, it's the smart choice for any tire manufacturer.

Product Attributes:

Brand Name: Lubekote

Place of Origin: China

Minimum Order Quantity: None

Payment Terms: T/T

Supply Ability: 20T/month

Delivery Time: 5-15 working days

Packaging Details: 25L, 200L

Application: Can be applied directly on the bladder or into the green tire

Advantage 3: Multiple releases per application

Product Name: Semi-Permanent Bladder Release Coatings Green Tires Water Based

Support and Services:

Our Tire Release Agent is a specially formulated product designed to make it easier to mount and demount tires from rims. It is a water-based product that is safe to use on all types of tires and rims, including aluminum and chrome.

In addition to providing superior lubrication, our Tire Release Agent also helps to protect tires and rims from damage during the mounting and demounting process. It is easy to apply and dries quickly, leaving no residue or mess behind.

If you have any questions or concerns about our Tire Release Agent, our technical support team is always available to assist you. We offer a range of services, including product training, troubleshooting, and on-site support to ensure that you get the most out of our product.

Packing:

Product Packaging: 20L, 200L

FAQ:

Q: What is the brand name of the Tire Release Agent?

A: The brand name of the Tire Release Agent is Lubekote.

Q: What are the model numbers of the Tire Release Agent?

A: The model numbers of the Tire Release Agent are 9502A, 9503A, and 9165C.

Q: Where is the Tire Release Agent manufactured?

A: The Tire Release Agent is manufactured in China.

Q: What is the minimum order quantity for the Tire Release Agent?

A: There is no minimum order quantity for the Tire Release Agent.

Q: What payment terms are accepted for the Tire Release Agent?

A: Payment terms accepted for the Tire Release Agent are T/T.

Q: What is the supply ability for the Tire Release Agent?

A: The supply ability for the Tire Release Agent is 20T/month.

Q: What is the delivery time for the Tire Release Agent?

A: The delivery time for the Tire Release Agent is 5-15 working days.

Q: What are the packaging details for the Tire Release Agent?

A: The packaging details for the Tire Release Agent are 25L and 200L.

Warehousing and logistics

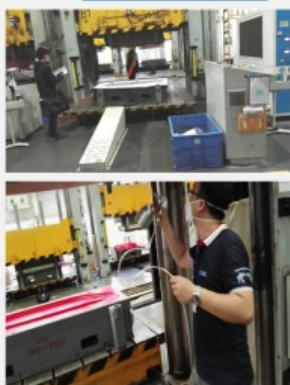

It has nearly 5,000 square meters of cargo storage area. Eight employees work full-time in warehousing.

Technical support

Making adjustment in the field

Shanghai Lorechem has a professional technical service team, whose members are specialized in polymer materials engineering. They have a wealth of field testing.

Testing in the field

Shanghai LoreChem Co., Ltd. was established in 2008.
