

High Dilution Water Based Rubber Mold Release Agent Lubekote 9700S

Our Product Introduction

for more products please visit us on shlorechem.com

Basic Information

- Place of Origin: China
- Brand Name: Lubekote
- Model Number: 9700S
- Minimum Order Quantity: None
- Price: 0-99usd
- Packaging Details: 20L, 200L
- Delivery Time: 10-15 working days
- Payment Terms: T/T
- Supply Ability: 20T/month

Product Specification

- Advantages: Minimum Build Up
- Product Form: Liquid
- Type: Water Based Rubber Release Agent
- Storage Conditions: Store In A Cool, Dry Place
- Feature: Environmental Friendly
- Chemical Resistance: Excellent
- Compatibility: Compatible With Most Rubber Materials
- Highlight: **Water Based Rubber Mold Release Agent ,
Rubber Mold Release Agent Liquid ,
Rubber Release Agent Environmental Friendly**

Product Description

High Dilution Water Based Rubber Mold Release Agent Lubekote 9700S

Product Description:

Rubber Mold Release Agent is a water based rubber release agent designed to deliver excellent release performance for most rubber molding applications. This release agent provides excellent chemical resistance, minimum build-up and can be used for a variety of rubber molding applications, including silicone rubber and silicone rubber molding. The Rubber Mold Release Agent is available in 20L and 200L packages.

This water based release agent for rubber molding provides superior release performance, ensuring that the rubber molds are easily released from the molding surface. It also has excellent chemical resistance, which makes it suitable for use in a variety of rubber molding applications. This release agent has minimum build-up, which makes it easier to use and less time-consuming to clean up. It also helps to minimize the amount of material wasted during the rubber molding process.

Rubber Mold Release Agent is an excellent choice for rubber molding applications, as it provides superior release performance and excellent chemical resistance. It is available in 20L and 200L packages, making it suitable for a variety of applications. This release agent also has minimum build-up, which helps to minimize waste during the rubber molding process. With its superior release performance and excellent chemical resistance, Rubber Mold Release Agent is an ideal choice for rubber molding applications.

Features:

Product Name: Rubber Mold Release Agent

Feature: Environmentally Friendly

Storage Conditions: Store In A Cool, Dry Place

Product Form: Liquid

Advantages: Minimum Build Up

Purpose: Release Agent for Rubber Parts

Character: High Dilution Rubber Release Agent

Technical Parameters:

Property	Value
Compatibility	Compatible With Most Rubber Materials
Type	Water based Rubber Release Agent
Diluent	Water
Feature	Environmental Friendly
Package	20L, 200L
Advantages	Minimum Build Up

Storage Conditions	Store In A Cool, Dry Place
Chemical Resistance	Excellent
Product Form	Liquid

Applications:

Lubekote 9700S Mold Release Agent is a rubber release agent that offers minimum build up. This water based rubber release agent is formulated with high dilution, making it environmentally friendly and easy to use. The product is available in 20L and 200L packages. It is an ideal rubber release agent that is widely used in the rubber molding industry. It is highly effective in preventing rubber from sticking to the mold surface and provides excellent release performance. It is suitable for use on various rubber materials, including natural and synthetic rubber.

Lubekote 9700S Mold Release Agent is easy to apply and provides excellent protection against vibration and abrasion. It helps to improve the productivity as it reduces the time required to clean the rubber molds. It also helps to reduce the cost associated with the production as it requires fewer resources for application.

This rubber release agent is suitable for use in a wide range of rubber molding processes, including injection molding, transfer molding, and compression molding. It is also ideal for use in rubber molds that are used for the production of automotive parts, industrial components, and consumer goods.

Lubekote 9700S Mold Release Agent helps to increase the life of rubber molds by preventing wear and tear. It also helps to eliminate the need for frequent cleaning of rubber molds, resulting in cost savings. This water based rubber release agent offers superior protection against wear and tear and is easy to apply.

Support and Services:

Rubber Mold Release Agent Technical Support and Services

At our company, we offer a range of technical support and services for our Rubber Mold Release Agent. Our experienced and knowledgeable staff are available to answer any questions or concerns you may have about the product.

Our customer service team can provide advice on the best application methods, as well as advice on how to maintain your Rubber Mold Release Agent for optimal performance. We also provide advice on storage, safety precautions, and troubleshooting tips.

In addition, we offer training courses to ensure that our customers are fully aware of the product's capabilities and how to use them. We also provide on-site visits to ensure that the product is being applied correctly.

If you have any queries or feedback about our Rubber Mold Release Agent, please don't hesitate to get in touch with us. We are always happy to help.

Packing and Shipping:

The Rubber Mold Release Agent should be packed in an appropriate container and closed tightly. The container should be labeled with the product name and ingredients. It should be stored in a cool, dry place away from direct sunlight. When shipping, it should be placed in a box or other sturdy container and sealed securely. The box or container should be labeled with the product name and hazardous material information.

Warehousing and logistics

It has nearly 5,000 square meters of cargo storage area. Eight employees work full-time in warehousing.

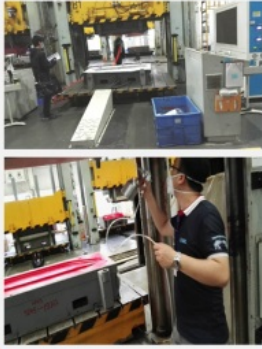

Technical support

Making adjustment in the field

Shanghai Lorechem has a professional technical service team, whose members are specialized in polymer materials engineering. They have a wealth of field testing.

Testing in the field

Shanghai LoreChem Co., Ltd. was established in 2008. It is a high-tech enterprise which is dedicated to serve releasing products which involve semi-permanent release agent, anti-sticking, surface lubrication and thermal reactive adhesive. Shanghai LoreChem has been improving product quality for 15 years. The releasing products are mainly applied in rubber, polyurethane and composite industry. The brand of Lubekote for release agent and Thinkbond for adhesive have been registered in China. Both of them are well known in the industry.

Shanghai LoreChem 's business is all over the domestic and foreign high-end production enterprises by providing professional technical solutions and services. The company's long-term goal is to become one of the best suppliers of release agent in Asia.
