

## Non Flammable CPU Wheel Water Based Mold Release Agent Liquid High Performance

Our Product Introduction

for more products please visit us on [shlorechem.com](http://shlorechem.com)

### Basic Information

- Place of Origin: China
- Brand Name: Lubekote
- Model Number: 9129E
- Minimum Order Quantity: None
- Price: 0-99usd
- Packaging Details: 20L, 200L
- Payment Terms: T/T
- Supply Ability: 10 tons/month

### Product Specification

- Appearance: White Liquid
- Storage Temperature: 10-30°C
- Shelf Life: 1 Years
- Odor: Mild
- Viscosity: Low
- Flammability: Non-flammable
- Stability: Stable
- Highlight: **Water Based Release Agent Non Flammable, CPU Wheel Mold Release Agent, Water Based Mold Release Agent Liquid**

## Product Description

### Product Description:

Water Based Mold Release Agent is a highly effective solution used to provide superior release performance for CPU wheel molding applications. It is formulated with water-soluble ingredients that provide superior lubricity and release properties without any flammability or toxicity. It is designed to protect the mold from sticking, and to ensure the finished product can be easily removed from the mold without damage. This release agent also has a wide storage temperature range of 10-30°C and a flash point of over 200°C, making it safe to use in a variety of conditions.

The water-based release agent is ideal for use in CPU wheel molding applications. It offers superior performance and reliability, and is designed to provide uniform release from molds without leaving any residue. This release agent is easy to apply and provides excellent results, allowing for a smooth and effortless release process. It is also non-toxic and non-flammable, making it safe to use in a variety of environments.

Water Based Mold Release Agent is the perfect solution for all your CPU wheel molding needs. It provides superior release performance and is easy to use, making it ideal for any application.

### Features:

**Product Name:** Water Based Mold Release Agent

**Appearance:** Liquid

**Viscosity:** Low

**Specialized Uses:** CPU Wheel Mold Release Agent

### Technical Parameters:

Product Name	Water Based Mold Release Agent
Freezing Point	<0°C
Storage Temperature	10-30°C
Stability	Stable
Flammability	Non-flammable
Flash Point	>200°C
Viscosity	Low
Appearance	Liquid
Solubility	Soluble In Water
Toxicity	Non-toxic
Main Use	CPU Wheel Mold Release Agent

## Support and Services:

### Water Based Mold Release Agent Technical Support and Service

We provide technical support and services for our Water Based Mold Release Agent product. Our trained technicians are available to answer any questions you may have about the product, its use and application. We can provide you with detailed instructions for installation and use, as well as advice on any maintenance or troubleshooting needs.

We can also provide technical advice on how to best utilize our Water Based Mold Release Agent in your particular project. Our experienced team of engineers can advise you on the best products to use for your application, as well as provide detailed information on any special requirements or safety precautions.

We offer a full range of after-sales services, including product training, troubleshooting assistance, and repair and replacement of parts. Our repair and replacement services are available for both domestic and international customers, and our technicians are always available to answer any questions you may have.

## Packing and Shipping:

### Packaging and Shipping for Water Based Mold Release Agent:

This product should be packaged and shipped in the following manner:

It should be packaged in a sealed container.

The container should be labeled clearly with product name, weight, and expiration date.

It should be shipped in a sturdy and waterproof box.

The box should be labeled with the product name, weight, and estimated delivery date.

It should be shipped via a secure and reliable shipping carrier.
