

Liquid PU Mold Release Agent Solvent Based for Anti Wood Furniture

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Lubekote
- Model Number: xxxxx
- Minimum Order Quantity: None
- Price: 1-99 usd
- Packaging Details: 25L, 200L
- Delivery Time: 5-15 working days
- Payment Terms: T/T
- Supply Ability: 20T/week

Product Specification

- Classification: Chemical
- Name: Liquid Mold Release Agent
- Brand Name: Lubekote
- Odor: Slight
- Place Of Origin: China
- Diluter: Solvent
- Highlight: liquid mold release agent for PU,
Lubekote 9701 pu release agent,
solvent based pu mold release agent

Product Description

Solvent Liquid Anti-wood Furniture Release Agent Lubekote 9701

Introduction:

Lubekote 9701 is formulated as a solvent-based dispersion of waxes and lubricating agents. Most commonly used in polyurethane, especially for cast foam.

Properties:

Colour: Off white liquid

Shelf life: 24 months

Advantages:

Easy to use

Good releasing

Multiple demolding per application (depending on the product)

Application:

Before application the mould surface must be clean and free of any release agent. Ensure that the mould is dry and all solvents have flashed off before injection. Stir before use. Dilute 9701 in white spirit or heptane before use. 9701 can be applied to mould surfaces preferably by spraying. Only a thin dry film is required. For the initial application 2 - 3 coats are recommended. Optimal performance at demoulding temperature 30-60°C.

Handling precautions:

For industrial use only.

Prolonged skin contact with high concentrate dilutions should be avoided. Accidental splashes in the eye should be washed out with copious amounts of water.

More release agent for PU industry:

Application	Suitable code	Dispersing medium	Advantages
CPU	Lubekote 9120	Water based	Environmentally friendly; Easy to apply; Prolongs the mold cleaning cycle.
CPU	Lubekote 9020	Solvent based	Highly diluted; Multiple releases; Gloss finish.
Rigid foam	Lubekote 9701	Solvent based	Dry surface; Good performance on post process; Dilutable.
Rigid foam	Lubekote 925L	Solvent based	Excellent and multiple releases; Highly diluted.
Flexible foam	Lubekote 9820A	Water based	Environmentally friendly; Low VOC; Delicate skin, highly diluted; Less contaminating mold.
ISF	Lubekote 9810G	Water based	5~10 times dilution; Cost-effective; Less contaminating mold; strong demolding; Universal for all ISF.
Encapsulation	Lubekote 9808E	Water based	Matt finish; Excellent performance of produced parts; Less contaminating mold; strong demolding; Universal for all encapsulation.

Warehousing and logistics

It has nearly 5,000 square meters of cargo storage area. Eight employees work full-time in warehousing.

Technical support

Making adjustment in the field

Shanghai Lorechem has a professional technical service team, whose members are specialized in polymer materials engineering. They have a wealth of field testing.

Testing in the field

Shanghai LoreChem Co., Ltd. was established in 2008. It is a high-tech enterprise which is dedicated to serve releasing products which involve semi-permanent release agent, anti-sticking, surface lubrication and thermal reactive adhesive. Shanghai LoreChem has been improving product quality for 15 years. The releasing products are mainly applied in rubber, polyurethane and composite industry. The brand of Lubekote for release agent and Thinkbond for adhesive have been registered in China. Both of them are well known in the industry. Shanghai LoreChem's business is all over the domestic and foreign high-end production enterprises by providing professional technical solutions and services. The company's long-term goal is to become one of the best suppliers of release agent in Asia.
