

Non Corrosive Water Based PU Foam Mold Release Agent For Gaming Seat

Our Product Introduction

for more products please visit us on shlorechem.com

Basic Information

- Place of Origin: China
- Brand Name: Lubekote
- Model Number: xxxx
- Minimum Order Quantity: None
- Price: 0-99usd
- Packaging Details: 20L, 200L
- Delivery Time: 10-15 working days
- Payment Terms: T/T
- Supply Ability: 20T/month

Product Specification

- Features: Non-staining, Non-corrosive
- Appearance: Liquid
- Application: Mold Release
- Odor: Mild
- Shelf Life: 1 Year
- Voc Content: Not Applicable
- Type: Liquid
- Form: Spray
- Highlight: **pu foam gaming seat release agent,
non corrosive polyurethane release agent,
water based pu release agent**

Product Description

Product Description:

The Foam Release Agent, a premium PU release agent, is an innovative solution specifically designed to cater to industries where polyurethane foam is frequently used. This high dilution release agent is meticulously formulated to provide an effortless and clean release of foam products from their molds, ensuring that the quality of the final product is never compromised. With a focus on efficiency and environmental responsibility, this PU release agent stands out as a superior choice for various applications.

One of the most remarkable features of the Foam Release Agent is its mild odor. Unlike many industrial agents that emit strong and unpleasant fumes, this release agent is crafted to be as unobtrusive as possible, making the work environment more pleasant for personnel. This also means that it does not impart any unwanted smells to the finished product, which is particularly important for consumer-facing goods where odor can affect the perception of quality.

E-sports chair is inseparable from the e-sports industry hardware, a good e-sports chair ergonomic design, consider ergonomics, can provide good support, reduce the pressure on the spine and waist, sitting for a long time is not easy to feel fatigue; Esports chairs are typically made of high-density materials and high-quality materials such as high-rebound foam seats and racing grade PVC leather to provide long-lasting safety, comfort and durability. Features:

Product Name: Foam Release Agent

Odor: Mild

Application: Mold Release - ideal as a car seat release agent

Shelf Life: 1 Year

Form: Spray

VOC Content: Not Applicable

High dilution release agent for efficient application

Technical Parameters:

Technical Parameter	Specification
Form	Spray
Type	Liquid
Features	Non-staining, Non-corrosive
Foam system	MDI&TM
Appearance	Liquid
Application	Mold Release
Classification	Chemical
Shelf Life	1 Year
Color	White
Odor	Mild
Description	dilutable release agent, flexible foam release agent, high efficiency release agent.

Applications:

1 time dilution, one-three-lobe mold for use, Lerigu ACMOS release agent spray one mold, mold temperature 65-70°C, 0.5-0.8mm diameter spraying, 2.5-3 bar pressure

Use effect: dry surface, uniform opening, normal demoulding, safe use

The Foam Release Agent is designed to ensure a smooth manufacturing process by preventing foam from sticking to molds and surfaces. Our technical support team is committed to providing you with comprehensive services to maximize the effectiveness of our product. For any technical inquiries or troubleshooting, you can rely on our expertise to guide you through the correct application methods, safety measures, and optimal storage conditions. Our support services also include guidance on compatibility with various materials and advice on how to achieve the best results for your specific production needs. Please note that while we do not provide direct contact information here, we are available through our official channels for any further assistance you may require.

Packing and Shipping:

Product Packaging for Foam Release Agent:

The Foam Release Agent is packaged securely in high-quality, industrial-grade containers to ensure the integrity of the product during transport and storage. Each container is sealed with a tamper-evident cap to guarantee product authenticity and prevent contamination. The labels on the containers provide clear instructions for use, safety information, and storage guidelines to maintain the efficacy of the agent. Please handle the containers with care and store them in a cool, dry place away from direct sunlight and extreme temperatures.

Shipping Information for Foam Release Agent:

Our Foam Release Agent is shipped following all applicable regulations and safety standards to ensure its safe arrival. The product is classified as non-hazardous for transportation and is not subject to any special shipping requirements. It is carefully packed in sturdy boxes with appropriate cushioning materials to prevent any damage during transit. The shipment includes a Material Safety Data Sheet (MSDS) for your reference and safety. We offer various shipping options to meet your delivery needs, and tracking information will be provided upon dispatch. Please inspect the package upon arrival and report any damage immediately to our customer service team.

Warehousing and logistics

It has nearly 5,000 square meters of cargo storage area. Eight employees work full-time in warehousing.

Technical support

Making adjustment in the field

Shanghai Lorechem has a professional technical service team, whose members are specialized in polymer materials engineering. They have a wealth of field testing.

Testing in the field

Shanghai LoreChem Co., Ltd. was established in 2008. It is a high-tech enterprise which is dedicated to serve releasing products which involve semi-permanent release agent, anti-sticking, surface lubrication and thermal reactive adhesive. Shanghai LoreChem has been improving product quality for 15 years. The releasing products are mainly applied in rubber, polyurethane and composite industry. The brand of Lubekote for release agent and Thinkbond for adhesive have been registered in China. Both of them are well known in the industry.

Shanghai LoreChem 's business is all over the domestic and foreign high-end production enterprises by providing professional technical solutions and services. The company's long-term goal is to become one of the best suppliers of release agent in Asia.
