

Silicone Free Internal Mold Release Agent For Epoxy Resin VOC Free

Our Product Introduction

for more products please visit us on shlorechem.com

Basic Information

- Place of Origin: China
- Brand Name: Lubekote
- Model Number: LubeKote xxx
- Minimum Order Quantity: None
- Price: negotiation
- Packaging Details: 20L, 200L
- Delivery Time: 10-15 working days
- Payment Terms: T/T
- Supply Ability: 20T/month

Product Specification

- Product Name: Clear Water Based Pultrusion CRC Internal Mold Release Agents
- Compatibility: Epoxy Resin
- Dosage: 1% To 3%
- Chemical Consistency: Seamless Post-treatment Options
- Silicone-free: Distinct Advantages
- Shelf Life: 12 Months
- Application: Pultrusion Process
- Efficiency: Maintaining Excellent Surface Quality
- Highlight: **Epoxy Resin Internal Mold Release Agent ,
Silicone Free Internal Mold Release Agent ,
VOC Free Internal Mold Release Agent**

Product Description

Silicone free Internal Mold Release Agent for Epoxy Resin VOC Free

Product Description:

The Lubekote Internal Mold Release Agent is compatible with a wide range of epoxy resins and can be used in a variety of applications including Injection Molding. This product is easy to use and only requires a dosage of 1% to 3%.

The Internal Mold Release Agent has a density of approximately 1.0 g/cm³ and is specially formulated to provide a smooth, even release of the finished product from the mold. This product is ideal for use in high-volume production environments where efficiency and consistency are key factors in achieving optimal results.

The Thinkbond Adhesive is also designed for use with Epoxy Resin and is formulated to provide excellent adhesion properties. This product is ideal for bonding a wide range of materials including metals, plastics, and composites.

Whether you are looking for an Internal Mold Release Solution, Internal Mold Release Agent, or Injection Molding Internal Release Agent, the Lubekote and Thinkbond products are the ideal choice for your needs. With their superior performance and ease of use, these products are sure to help you achieve the best possible results in your production process.

Features:

Product Name: Clear Water Based Pultrusion CRC Internal Mold Release Agents

Appearance: Clear liquid

Silicone-free: Distinct advantages

Compatibility: Epoxy Resin

Brand: Lubekote for release agent and Thinkbond for adhesive

Function: Semi permanent mold release agent

Type: Internal Mold Release Solution

Also known as: Internal Mold Releasing Agent

Technical Parameters:

Dosage	1% to 3%
Density	Approx. 1 g/cm ³
Industry	Rubber, Polyurethane and Composite Industry
Compatibility	Epoxy Resin
Product Name	Clear Water Based Pultrusion CRC Internal Mold Release Agents
Brand	Lubekote for release agent and Thinkbond for adhesive
Efficiency	Maintaining excellent surface quality
Product Category	Internal Mold Release Agent
Chemical Consistency	Seamless post-treatment options
Silicone-free	Distinct advantages

Applications:

The LubeKote Internal Mold Release Agent is a high-quality insider molding unreleasing liquid designed to facilitate the release of molded products from the mold surface. This liquid mold release is perfect for use in various industries to reduce production time and ensure a smooth and easy release of the molded products. The LubeKote Internal Mold Separating Agent is a silicone-free product that offers distinct advantages over other mold release agents.

The LubeKote Internal Mold Release Agent is ideal for use in a variety of application occasions and scenarios, including injection molding, blow molding, compression molding, and many more. This product is perfect for use in the production of plastic parts, rubber parts, and other molded products. The clear liquid appearance of the LubeKote Internal Mold Release Agent makes it easy to apply and ensures that the mold surface is evenly coated, providing excellent release properties.

Support and Services:

Our Internal Mold Release Agent is a high-quality product designed to improve the molding process for a variety of materials. It provides excellent release properties, allowing for easy removal of molded parts from the mold. Our technical support team is available to answer any questions you may have about the product and to provide guidance on its use. Additionally, we offer a range of services to ensure that our product meets your specific needs, including custom formulations and on-site support. Contact us today for more information on how our Internal Mold Release Agent can benefit your manufacturing process.

FAQ:

Q1: What is Lubekote Internal Mold Release Agent?

A1: Lubekote Internal Mold Release Agent is a chemical compound that is applied to the surface of molds to prevent materials from sticking to them during the manufacturing process.

Q2: What is the model number of Lubekote Internal Mold Release Agent?

A2: The model number for Lubekote Internal Mold Release Agent is LubeKote.

Q3: Where is Lubekote Internal Mold Release Agent manufactured?

A3: Lubekote Internal Mold Release Agent is manufactured in China.

Q4: What is the packaging size of Lubekote Internal Mold Release Agent?

A4: Lubekote Internal Mold Release Agent is available in 20L and 200L containers.

Q5: What are the payment and delivery terms for Lubekote Internal Mold Release Agent?

A5: The price of Lubekote Internal Mold Release Agent is negotiable, and payment is accepted via T/T. The supply ability is 20T/month, and delivery time is 10-15 working days. The product has no minimum order quantity.
