

## Efficient Internal Release Agent Free Of Silicone Excellent Surface For Post Treatment

Our Product Introduction

for more products please visit us on [shlorechem.com](http://shlorechem.com)

### Basic Information

- Place of Origin: China
- Brand Name: Lubekote
- Model Number: LubeKote
- Minimum Order Quantity: None
- Price: negotiation
- Packaging Details: 20L, 200L
- Delivery Time: 10-15 working days
- Payment Terms: T/T
- Supply Ability: 20T/month

### Product Specification

- Density: Approx. 0.86 G/cm<sup>3</sup>
- Compatibility: Epoxy Resin
- Shelf Life: 12 Months
- Handling Precautions: For Industrial Use Only
- Appearance: Clear Liquid
- Advantage: VOC Free, Water Based
- Dosage: 0.5% To 1.0%
- Application: Pultrusion Process
- Highlight: **Efficient Internal Release Agent,  
Silicone Surface Internal Release Agent,  
Post Treatment Internal Release Agent**

## Product Description

### Efficient Internal Release Agent Free Of Silicone Excellent Surface For Post- Treatment

#### Product Description:

This internal release agent is highly effective, specifically designed for use with polyester- and acrylic resins. Notably, it is completely silicone-free. Thanks to its chemical consistency, it enables convenient post-treatment options after release, such as painting or foaming directly onto the created surface, without the need for additional procedures like sanding. This feature ensures a seamless and hassle-free process, allowing for efficient and versatile applications.

#### Technical Parameters:

Brand:	Lubekote
Dosage:	0.5% to 1.0%
Handling Precautions:	For industrial use only
Shelf Life:	12 months
Appearance:	Clear liquid
Silicone-free:	Distinct advantages
Product Category:	Internal Mold Release Agent
Compatibility:	Epoxy Resin

#### Applications:

This internal release agent is highly effective, specifically designed for use with polyester- and acrylic resins. Notably, it is completely silicone-free. Thanks to its chemical consistency, it enables convenient post-treatment options after release, such as painting or foaming directly onto the created surface, without the need for additional procedures like sanding. This feature ensures a seamless and hassle-free process, allowing for efficient and versatile applications.

#### Support and Services:

The Internal Mold Release Agent product is designed to provide excellent release performance for various types of elastomers and plastics. Our technical support team is available to provide assistance with product selection, application, and troubleshooting. We also offer services such as on-site testing and evaluation, custom formulations, and product training. Our goal is to ensure that our customers achieve optimal performance and efficiency with our Internal Mold Release Agent product.

#### Packing:

Product Packaging: 20 L, 200L
