

Semi Permanent Water Based Molding Release Agent Liquid For Rubber Parts

Our Product Introduction

for more products please visit us on shlorechem.com

Basic Information

- Place of Origin: China
- Brand Name: Lubekote
- Model Number: 9165C/9421A/9338C
- Minimum Order Quantity: None
- Price: 0-99usd
- Packaging Details: 20L, 200L
- Payment Terms: T/T
- Supply Ability: 20T/month

Product Specification

- Solubility: Insoluble In Water
- Status: Liquid
- Chemical Resistance: Excellent
- Product Name: Semi Permanent Mold Release Agent
- Appearance: White/clear Liquid
- Type: Water Based Release Agent
- Shelf Life: 1 Year
- Application: For NR/NBR/EPDM/fluororubber
- Highlight: **Rubber Parts Molding Release Agent,
Semi Permanent Mold Release Agent,
Water Based Mold Release Agent For Rubber**

Water Based Semi-Permanent Molding Release Agent for Rubber Parts

Product Description:

Semi Permanent Mold Release Agent

Product Overview:

Our Semi Permanent Mold Release Agent is a high-quality release agent designed for use in a variety of applications. It is a water-based release agent that offers excellent chemical resistance and is specifically formulated for use for rubber parts. With a shelf life of 1 year and a specific gravity of 1.05-1.10, our release agent is a reliable and long-lasting solution for your mold release needs.

Our Semi Permanent Mold Release Agent is a water-based release agent, making it environmentally friendly and easy to use.

Our release agent is insoluble in water, ensuring that it stays on the surface of the mold and provides effective release properties.
Specific Gravity:

Features:

Product Name: Semi Permanent Mold Release Agent

Specific Gravity: 1.05-1.10

Chemical Resistance: Excellent

Type: Water Based Release Agent

Application: For NR/NBR/EPDM/fluororubber

Semi-Permanent Rubber Release Agent

Technical Parameters:

Property	Value
Product Name	Semi Permanent Mold Release Agent
Type	Water Based Release Agent
Solubility	Insoluble In Water
Shelf Life	1 Year
Chemical Resistance	Excellent
Appearance	White/clear Liquid
Application	For NR/NBR/EPDM/fluororubber
Status	Liquid
Specific Gravity	1.05-1.10

Applications:

Semi Permanent Mold Release Agent - Lubekote

Brand Name: Lubekote

Model Number: 9165C/9421A/9338C

Place of Origin: China

Chemical Resistance: Excellent

Product Name: Semi Permanent Mold Release Agent

Type: Water Based Release Agent

Application: For NR/NBR/EPDM/fluororubber

Shelf Life: 1 Year

Introduction

Lubekote Semi Permanent Mold Release Agent is a water based release agent specially designed for NR, NBR, EPDM, and fluororubber materials. It is a high quality, non-toxic and easy to use product that provides excellent chemical resistance and durability.

Lubekote Semi Permanent Mold Release Agent is suitable for use in a variety of industries, including automotive, aerospace, and manufacturing. It can be used for releasing molded plastic parts, castings, and other rubber products. Its water based formula makes it compatible with a wide range of materials, including NR, NBR, EPDM, and fluororubber.

How to Use

Clean the mold surface thoroughly and make sure it is dry before applying the release agent.

Shake well before use.

Spray the release agent evenly on the mold surface, or apply with a clean cloth or brush.

Allow the release agent to dry before using the mold.

Reapply as needed, depending on the frequency of use and the complexity of the mold.

Storage and Shelf Life

Store Lubekote Semi Permanent Mold Release Agent in a cool, dry place, away from direct sunlight and heat sources. The shelf life of this product is 1 year from the date of manufacture.

Conclusion

Lubekote Semi Permanent Mold Release Agent is a top quality product that provides excellent chemical resistance and durability. Its water based formula makes it non-toxic and easy to use, making it a safe and effective choice for all your mold release needs. Trust Lubekote for all your semi-permanent cast release agent needs.

FAQ:

Semi Permanent Mold Release Agent is a type of mold release agent that is designed to be used multiple times without frequent reapplication.

Q: What is the brand name of this product?

The brand name of this product is Lubekote.

Q: Where is this product manufactured?

This product is manufactured in China.

Q: What are the benefits of using Semi Permanent Mold Release Agent?

This product can reduce the need for frequent reapplication, saving time and cost in the long run.

It can also provide a smoother and more consistent release, improving the quality of the final product.

The use of this product can also extend the lifespan of the mold, reducing maintenance and replacement costs.

It is also environmentally friendly and does not contain harmful chemicals.

Overall, using Semi Permanent Mold Release Agent can increase efficiency and cost-effectiveness in the production process.

Warehousing and logistics

It has nearly 5,000 square meters of cargo storage area. Eight employees work full-time in warehousing.

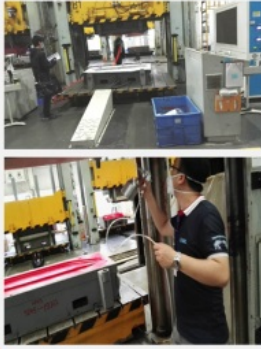

Technical support

Making adjustment in the field

Shanghai Lorechem has a professional technical service team, whose members are specialized in polymer materials engineering. They have a wealth of field testing.

Testing in the field

Shanghai LoreChem Co., Ltd. was established in 2008. It is a high-tech enterprise which is dedicated to serve releasing products which involve semi-permanent release agent, anti-sticking, surface lubrication and thermal reactive adhesive. Shanghai LoreChem has been improving product quality for 15 years. The releasing products are mainly applied in rubber, polyurethane and composite industry. The brand of Lubekote for release agent and Thinkbond for adhesive have been registered in China. Both of them are well known in the industry. Shanghai LoreChem's business is all over the domestic and foreign high-end production enterprises by providing professional technical solutions and services. The company's long-term goal is to become one of the best suppliers of release agent in Asia.
