

## Water Based Semi Permanent Rubber Mold Release Agent For NR NBR EPDM Fluororubber

Our Product Introduction

for more products please visit us on [shlorechem.com](http://shlorechem.com)

### Basic Information

- Place of Origin: China
- Brand Name: Lubekote
- Model Number: 9165C/9421A/9338C
- Minimum Order Quantity: None
- Price: 0-99usd
- Packaging Details: 20L, 200L
- Payment Terms: T/T
- Supply Ability: 20T/month

### Product Specification

- Specific Gravity: 1.05-1.10
- Product Name: Semi Permanent Mold Release Agent
- Application: For NR/NBR/EPDM/fluororubber
- Solubility: Insoluble In Water
- Status: Liquid
- Type: Water Based Release Agent
- Chemical Resistance: Excellent
- Appearance: White/clear Liquid
- Highlight: **Water Based Release Agent for EPDM, Lubkekote Rubber Release Agent, Rubber Mold Release Agent Semi Permanent**

## Product Description

### Lubkekote Water Based Semi-Permanent Rubber Release Agent Environment Friendly

#### Product Description:

##### Product Overview

The Semi Permanent Mold Release Agent is a specially formulated water-based release agent designed for use with various rubber materials such as NR, NBR, EPDM, and fluororubber. It is a semi-permanent release agent, meaning it provides multiple releases from the same mold, making it highly cost-effective and efficient. This product is available in a liquid form and has a specific gravity of 1.05-1.10.

##### Application

The Semi Permanent Mold Release Agent is specifically designed for use with NR, NBR, EPDM, and fluororubber materials. It can be applied to molds to ensure easy release of the final product.

##### How to Use

Clean the mold or surface to be treated and make sure it is completely dry.

Apply the Semi Permanent Mold Release Agent evenly onto the surface, using a brush, roller, or spray gun.

Allow the release agent to dry for a few minutes before using the mold or surface.

For best results, apply a second coat and let it dry completely before using the mold or surface.

##### Precautions

Do not mix this product with other release agents as it may affect its performance.

Avoid contact with skin and eyes. In case of contact, rinse immediately with plenty of water.

Keep out of reach of children.

Read and follow all safety instructions and precautions provided on the product label.

##### In Conclusion

The Semi Permanent Mold Release Agent is a high-quality, water-based release agent that provides excellent release properties for various types of rubber materials. Its semi-permanent nature and long shelf life make it a cost-effective and reliable choice for any industry that requires smooth and easy release of molded products.

#### Features:

**Product Name:** Semi Permanent Mold Release Agent

**Chemical Resistance:** Excellent

**Status:** Liquid

**Solubility:** Insoluble In Water

**Specific Gravity:** 1.05-1.10

#### Technical Parameters:

<b>Product Name</b>	Semi Permanent Mold Release Agent
<b>Type</b>	Water Based Release Agent
<b>Appearance</b>	White/clear Liquid
<b>Specific Gravity</b>	1.05-1.10
<b>Solubility</b>	Insoluble In Water
<b>Application</b>	For NR/NBR/EPDM/fluororubber
<b>Chemical Resistance</b>	Excellent
<b>Status</b>	Liquid
<b>Shelf Life</b>	1 Year

#### Applications:

**Brand Name:** Lubekote

**Model Number:** 9165C/9421A/9338C

**Place of Origin:** China

**Application:** For NR/NBR/EPDM/fluororubber

**Shelf Life:** 1 Year

**Chemical Resistance:** Excellent

**Specific Gravity:** 1.05-1.10

### Appearance: White/clear Liquid

Lubekote Semi Permanent Mold Release Agent is a high-quality and reliable product designed for use in various industries and applications. This non-silicone release agent provides superior performance and is suitable for use with a wide range of materials including NR, NBR, EPDM, and fluororubber.

As a Chinese company, Lubekote takes pride in providing high-quality products that meet international standards. Our Semi Permanent Mold Release Agent is no exception. It is manufactured using advanced technology and undergoes strict quality control to ensure its effectiveness and reliability.

Choose Lubekote Semi Permanent Mold Release Agent for your industry and experience the difference in performance and efficiency. Trust in our non-silicone, high temperature resistant release agent to provide clean and durable release for all your molding needs.

### FAQ:

Q: What is the brand name of this product?

A: The brand name of this product is Lubekote.

Q: Where is this product manufactured?

A: This product is manufactured in China.

Q: What type of mold is this product suitable for?

A: This product is suitable for semi permanent molds.

Q: Is this product easy to use?

A: Yes, this product is easy to use. Simply apply a thin, even coat onto the mold surface before each use.

## Warehousing and logistics

It has nearly 5,000 square meters of cargo storage area. Eight employees work full-time in warehousing.

## Technical support

### Making adjustment in the field

Shanghai LoreChem has a professional technical service team, whose members are specialized in polymer materials engineering. They have a wealth of field testing.

### Testing in the field

Shanghai LoreChem Co., Ltd. was established in 2008. It is a high-tech enterprise which is dedicated to serve releasing products which involve semi-permanent release agent, anti-sticking, surface lubrication and thermal reactive adhesive. Shanghai LoreChem has been improving product quality for 15 years. The releasing products are mainly applied in rubber, polyurethane and composite industry. The brand of Lubekote for release agent and Thinkbond for adhesive have been registered in China. Both of them are well known in the industry. Shanghai LoreChem's business is all over the domestic and foreign high-end production enterprises by providing professional technical solutions and services. The company's long-term goal is to become one of the best suppliers of release agent in Asia.
