

Water Based Anti Vibration Rubber Release Agent Concentrate

Our Product Introduction

for more products please visit us on shlorechem.com

Basic Information

- Place of Origin: China
- Brand Name: Lubekote
- Certification: ISO
- Model Number: 9421A/9410/9338C
- Minimum Order Quantity: None
- Price: 1-99 usd
- Packaging Details: 20L, 200L
- Payment Terms: T/T
- Supply Ability: 20T/week

Product Specification

- Color: Clear/white
- Shelf Life: 1 Year
- Voc Content: Low
- Diluter: Water
- Feature: Environmental Friendly
- Status: Liquid
- Instructions: External Release Agent
- Highlight: **Anti Vibration Rubber Release Agent,
Water Based Rubber Release Agent,
Concentrate Rubber Release Agent**

Product Description

Water Based Anti Vibration Rubber Release Agent Concentrate

Product Description:

Lubekote 9338C is a release system designed for molding operations. It produces a durable film on the mold surface capable of providing many releases before reapplication is necessary. Lubekote 9338C will not contaminate the released surface.

Lubekote 9338C is water-based. It is ready to use. But it can be diluted in some cases.

Features:

Product Name: Water Based Anti Vibration Rubber Release Agent Concentrate

Appearance: White liquid

Feature: Water based, no VOC

Diluter: Water

High Dilution Release Agent

Cost-effective

Low transfer, No knit lines.

Applications:

The mold should be thoroughly cleaned.

The release agent should be well stirred before use.

It is ready to use. In the case of ensuring smooth release it can be diluted by adding 1-3 parts of water. It is best to use deionized water.

Apply a thin coat of Lubekote 9338C. After the water has evaporated start the production.

Handling precautions:

For industrial use only.

Prolonged skin contact with high concentrate dilutions should be avoided. Accidental splashes in the eye should be washed out with copious amounts of water.

Do not allow product to freeze.

Warehousing and logistics

乐瑞固·中国

It has nearly 5,000 square meters of cargo storage area. Eight employees work full-time in warehousing.

Technical support

Making adjustment in the field

Testing in the field

Shanghai Lorechem has a professional technical service team, whose members are specialized in polymer materials engineering. They have a wealth of field testing.

Shanghai LoreChem Co., Ltd. was established in 2008. It is a high-tech enterprise which is dedicated to serve releasing products which involve semi-permanent release agent, anti-sticking, surface lubrication and thermal reactive adhesive. Shanghai LoreChem has been improving product quality for 15 years. The releasing products are mainly applied in rubber, polyurethane and composite industry. The brand of Lubekote for release agent and Thinkbond for adhesive have been registered in China. Both of them are well known in the industry.

Shanghai LoreChem 's business is all over the domestic and foreign high-end production enterprises by providing professional technical solutions and services. The company's long-term goal is to become one of the best suppliers of release agent in Asia.
