

Wholesale Water Based Semi Permanent Rubber Release Agent Gasket Mold Release

Our Product Introduction

for more products please visit us on shlorechem.com

Basic Information

- Place of Origin: China
- Brand Name: Lubekote
- Certification: ISO 9001
- Model Number: 9165C/9330C
- Minimum Order Quantity: None
- Price: negotiation
- Packaging Details: 20L, 200L
- Delivery Time: 10-15 working days
- Payment Terms: T/T
- Supply Ability: 20T/month

Product Specification

- Instructions: External Release Agent
- Safety Precautions: Wear Protective Gloves And Eyewear
- Diluent: Deionized Water, Distilled Water
- Feature: Environmental Friendly
- Shelf Life: 1 Year
- Color: Clear/white
- Status: Liquid
- Compatibility: Works With Most Rubber Materials
- Highlight: **Semi Permanent Rubber Release Agent, Water Based Rubber Release Agent**

Product Description

Wholesale Water Based Rubber Release Agent Gasket Mold Release

Product Description:

Lorechem, a seasoned expert in the realm of semi-permanent releases, boasts a distinguished legacy of over 16 years dedicated to the craft of mold release agent production. Our offerings encompass three distinct types of mold releases tailored for rubber applications: water-based release agent, solvent-based rubber mold release agent, and semi-permanent release agents. Among our notable products, the 91165C, 9410A, 9330B, 9338C stand out as a water-based mold release agent renowned for its exceptional demolding capabilities, non-toxic composition, and ease of cleaning. Primarily designed for demolding various rubber products such as pipes, gaskets, hoses, cushions, and other general rubber items, it exemplifies superior performance and reliability in the industry.

Features:

Product Name: Rubber Mold Release Agent

Status: Liquid

Instructions: External Release Agent

Diluent: Deionized Water, Distilled Water

Application: Rubber Seal & Gasket Parts

Safety Precautions: Wear Protective Gloves And Eyewear

Features:

Sealing release agent

Strong release power

High dilution release agent

Applications:

Ensure thorough cleaning of the mold.

Properly stir the release agent prior to application.

The product is prepped for immediate use. To ensure a smooth release, consider diluting it with 1-3 parts of water, preferably deionized.

Apply a light layer of LubeKote release agent. Begin production after the water has evaporated.

Support and Services:

The Rubber Mold Release Agent product is designed to provide a superior release for all types of rubber molds. Our technical support team is available to assist with any questions or concerns regarding the use of the product and can provide guidance on proper application techniques. In addition, we offer a range of services including custom formulation and testing to ensure optimal performance for your specific application. Contact us for more information on our technical support and services.

More release agent for Rubber Industry:

Application	Suitable code	Dispersing medium	Advantages
Antivibration	Lubekote 9421A/ 9140	Water based	Environmentally friendly; Can be diluted multiple times; It has strong durability and good releasing effect; Excellent performance of surface gloss; Cost-effective; Prolongs the mold cleaning cycle.
Antivibration	Lubekote 9526	Solvent based	It has strong durability and good releasing effect; Excellent performance of surface gloss; Economical dosage; Prolongs the mold cleaning cycle. Excellent performance of surface gloss; Cost-effective; Good performance on post process; Prolongs the mold cleaning cycle applied as both semi-permanent and highly diluted.
Antivibration	Lubekote 9425	Solvent based	It has strong durability and good releasing effect; Less build-up on molds; Cost-effective; Good performance on post process.
Hose	Lubekote 9240	Water based	Environmentally friendly; Excellent anti-tack agent for rollers, drums and autoclave vulcanisation operations
Hose	Lubekote 9808	Solvent based	Non greasy, non contaminating coating; Good releasing effect; Excellent performance of produced parts.
Belt	Lubekote 9836A	Water based	Environmentally friendly; Good releasing effect.
Belt	Lubekote 9328	Solvent based	Fast drying; Good releasing effect; Cost-effective.
Tire	Lubekote 9919	Water based	Semi-permanent lubricant system designed for coating of Bladders and touch up coats on Bladders or Green Tires; Easy to apply; Provides true multiple releases; Universal for all tires.
Tire	Lubekote 9502A/9503A	Water based	Semi-permanent water-based release agent applied on tire molds. The gloss level of part surface gloss is adjustable.
Silicone & Fluorine rubber	Lubekote 9165C	Water based	Applied for releasing hard-to-release rubber such as fluorine rubber ; Can be used as both semi-permanent and highly diluted. As semi-permanent it has strong durability and good releasing effect; Excellent performance of surface gloss; Cost-effective; Good performance on post process;

Shanghai Lorechem Co., Ltd. was established in 2008. It is a high-tech enterprise which is dedicated to serve releasing products which involve semi-permanent release agent, anti-sticking, surface lubrication and thermal reactive adhesive.
