

Water-Based Rubber Mold Release Agent Rubber Belt Demolding Environmentally Friendly System

Our Product Introduction

for more products please visit us on shlorechem.com

Basic Information

- Place of Origin: China
- Brand Name: Lubekote
- Certification: ISO 9001
- Model Number: Lubekote 9836A
- Minimum Order Quantity: 25L
- Price: 1-99 USD
- Packaging Details: 25L, 200L
- Delivery Time: 5-15 working days
- Payment Terms: T/T
- Supply Ability: 20T/week

Product Specification

- Product Name: Rubber Mold Release Agent
- Classification: Chemical
- Odor: Slight
- Application: Demolding For Belt Industry
- Advantage: Environmentally Friendly
- Highlight: **water-based rubber mold release, rubber belt demolding agent, environmentally friendly mold release system**

Product Description

Lubekote 9836A is a water-based rubber mold release agent engineered for rubber belt demolding. It provides a good releasing effect while remaining environmentally friendly, making it ideal for manufacturers seeking to reduce solvent emissions without compromising productivity. The product applies easily and forms a consistent release film on belt molds, ensuring clean demolding of V-belts, timing belts, and conveyor belts. Its water-based formulation supports a safer workplace and simplifies cleaning, while the reliable release performance helps maintain high output and consistent belt quality.

Key Features

- **Environmentally Friendly:** Water-based formula with low VOC emissions for greener production.
- **Good Releasing Effect:** Ensures clean, consistent demolding of rubber belts.
- **Easy Application:** Applies uniformly by spray, brush, or dip for fast setup.
- **Consistent Release Film:** Forms a stable film that supports repeatable production cycles.
- **Reduced Mold Build-Up:** Lowers residue and simplifies mold cleaning between runs.
- **Broad Belt Compatibility:** Suitable for V-belts, timing belts, and conveyor belts.

Technical Specifications

Parameter	Specification
Product Name	Rubber Mold Release Agent
Brand Name	Lubekote
Model Number	Lubekote 9836A
Classification	Chemical release agent
Diluent	Water
Odor	Slight
Application	Demolding for belt industry
Feature	Environmentally friendly

Applications

Lubekote 9836A is designed for rubber mold release in belt manufacturing, including V-belts, timing belts, flat belts, and industrial conveyor belts. It is compatible with steel and aluminum belt molds and works effectively with natural rubber, nitrile, and EPDM compounds. The product performs reliably in both compression molding and transfer molding processes, delivering clean release and preserving the dimensional accuracy and surface finish of molded belts.

Packaging & Quality Assurance

Lubekote 9836A is available in 25L and 200L containers with a delivery time of 5-15 working days. Every batch is tested for release performance, stability, and consistency. Store in a cool, dry place and protect from freezing. For industrial use only; avoid prolonged skin contact and rinse eyes with water immediately on contact.
